

OVERVIEW

Please read this manual thoroughly before using the iQ NO BARK.

PRODUCT SAFETY AND HEALTH STATEMENT

1. The iQ NO BARK is intended to prevent the barking of dogs only. It is NOT intended for use on people or on animals other than dogs. Dogtra does not assume any liability for the improper use of the iQ NO BARK.
2. Leaving the iQ NO BARK in the same position on a dog's neck for extended periods of time can cause skin irritation. To prevent this, occasionally reposition the unit so the contact points are moved to a different location on the dog's neck. Always check your dog's neck for signs of skin irritation when using the iQ NO BARK.
3. A proper fit is necessary for the iQ NO BARK to work optimally. Both contact points must be in contact with your dog's skin at all times for a consistent stimulation. A loose fitting collar can cause the contact points to rub against the skin and cause irritation.
4. The iQ NO BARK is not intended for use on dogs weighing less than 10 pounds or less than 6 months of age. Please consult a veterinarian if attempting to use the iQ NO BARK on dogs smaller than the recommended weight.
5. Please remove the iQ NO BARK before playing with your dog. The activity may cause your dog to bark, which could lead him/her to associate playing with the electrical stimulation.
6. Closely monitor your dog's activity and stimulation output while using the iQ NO BARK. When removing the iQ NO BARK from your dog's neck, make sure your dog is not barking and in a calm or stable condition.

PACKAGE CONTENTS

MAIN FEATURES

- Fully waterproof receiver/collar
- Medium output receiver/collar
- 10 intensity levels on receiver/collar
- Ultra-compact receiver/collar
- Conductive plastic contact points
- Bark recognition sensor
- Learning vibration system
- For dogs as small as 10 lbs
- Replaceable coin lithium batteries included

DESCRIPTION

USING THE ON/OFF & INTENSITY DIAL (refer to ①)

- The On/Off & Intensity Dial on the collar is used to turn the iQ NO BARK on and off, to select the intensity level, and to test the collar.
- Set the On/Off & Intensity Dial to the " " position to turn off the iQ NO BARK.
- When the dial is set to the Pager mode (P), the collar will only vibrate.
- Level 1 is the lowest stimulation level with level 10 being the highest. On each level, a vibration is followed by the stimulation.
- Set the On/Off & Intensity Dial to the Test mode (T) to Test the iQ NO BARK. See the Testing Guide for directions on how to test the iQ NO BARK.

On/Off & Intensity Dial	Function
•	Power off
P	Vibration only (non-stimulation)
1-10	Vibration followed by stimulation
T	Test mode

NOTICE

When first using the iQ NO BARK, it is recommended that you start with the lowest level. If the dog continues to bark, gradually increase the intensity level. Closely monitor your dog's reaction to find the right stimulation level.

LED INDICATOR LIGHT (refer to ②)

The LED indicator light will flash for 1 second when the iQ NO BARK has been turned on, and will blink every 3 seconds afterwards. If your dog does not bark for over 10 seconds, the LED indicator light will turn off and the iQ NO BARK will go into a sleep mode to conserve battery life. It will reactivate when your dog barks and a vibration/correction needs to be made.

OPERATION MODES

1. Pager vibration mode
 - Turn the intensity dial to P.
 - When your dog barks the iQ NO BARK will vibrate twice.
2. Stimulation levels 1-10
 - Stimulation levels from 1 to 10, with 1 being the lowest level and 10 being the highest level.

IQ NO BARK ACTIVATION

- When the iQ NO BARK is first activated by the dog's bark, the unit will give a vibration twice.
- If the dog barks within 4 seconds, the system will give one vibration and then stimulation.
- The iQ NO BARK will have a delay of 15 seconds in between corrections. Once the unit activates, it will not activate again for 15 seconds.

TESTING THE IQ NO BARK

- Turn the On/Off & Intensity Dial to (T), for the Test mode. The LED indicator light will flash once then flash every 3 seconds.
- Activate the collar by making sounds directly into the mic. The unit should now vibrate twice. After waiting 15 seconds, repeat the test once more to verify that it is fully functional.

*In the Test mode, the sensor may be sensitive enough so that it can easily activate by a quiet sound, tap, or blow into the mic.

ATTACHING THE COLLAR STRAP

1. With the On/Off & Intensity Dial going in first, insert the body of the iQ NO BARK into the collar strap.
2. Pull the collar strap from the opposite side of the On/Off & Intensity Dial over the rest of the body.
3. Be sure that the collar strap is wrapped fully around the body of the iQ NO BARK.

* For video instructions on how to attach the collar strap, please visit www.dogtra.com

REPLACING THE BATTERIES

- Using a coin, unscrew the battery cover counterclockwise.
- Insert the two coin batteries with the plus side facing out.
- Make sure the rubber gasket is in place and screw the battery cover clockwise.

ATTENTION!

- When the batteries are placed incorrectly, the LED indicator light may turn on, but the unit will not operate properly.
- The unit is working properly when the LED indicator light blinks once. When the LED indicator light blinks twice consecutively, the battery will need to be replaced.
- Please remove the plastic battery seals before installing the batteries.

PROPER FIT

A proper fit is necessary for the iQ NO BARK to work optimally. Both contact points must be in contact with your dog's skin at all times for a consistent stimulation. A loose fitting collar can cause the contact points to rub against the skin and cause irritation.

TROUBLESHOOTING

1. When do I replace the batteries on my iQ NO BARK?
 - If the unit is not activating or the LED indicator light does not turn on, the batteries may need to be replaced. Overall, the battery life will depend on usage. If the iQ NO BARK is activating about 10 times a day, the battery will have an average life of about 2 weeks.
2. How do I clean the iQ NO BARK?
 - To clean the iQ NO BARK, make sure the battery cover is closed and fully sealed. Use a damp cloth to wipe down the unit and make sure the unit is completely dry before use.
3. My dog is not reacting to the iQ NO BARK.
 - Check the LED indicator light to see that the iQ NO BARK has enough battery life.
 - Make sure the collar strap is tight enough so both contact points are touching the dog's skin.

- If your dog has a thick or long coat, you may need to trim the hair on the dog's neck so that both contact points are touching the dog's skin.
 - The intensity level may be too low for your dog. Keep increasing the stimulation until the dog responds, usually with neck movement, head shaking, looking over its shoulder, etc. (response may be very subtle).
4. My dog has skin irritation.
 - This may be due to an improper fit or leaving the collar in the same location for an extended period of time. If your dog exhibits signs of skin irritation, consult with a veterinarian.
 - Once the dog's skin returns to a normal condition, continue to use the collar and check your dog's neck each time you use the unit.

DOGTRA PRODUCT WARRANTY

LIMITED WARRANTY

For Dogtra Products Purchased from Dogtra Authorized Dealers

One-Year Warranty

Except as otherwise provided below, Dogtra warrants to the original retail purchaser ("You") that its Dogtra products shall be free of defects in materials and workmanship for a period of one (1) year from the date of purchase ("Warranty"). The Warranty covers the cost of repair (parts and labor) or replacement (if repair is not feasible) of a defective Dogtra product during said one-year period. For such repaired or replaced products, the remaining portion of the original warranty period, or ninety (90) days, whichever is longer, shall apply. Dogtra, at its sole discretion, shall determine whether to repair or replace a product covered by the Warranty.

Warranty Conditions

The Warranty is not transferrable and applies to your Dogtra product only if:

- (1) You are the original retail purchaser of the product,
- (2) You bought the product from a Dogtra authorized dealer, and
- (3) You present a receipt or other proof of purchase showing a valid purchase date, the name and address of the authorized dealer, and the purchased product identified by model and/or serial number.

Warranty Exclusions

The Warranty does not cover damage, loss, or deterioration to your Dogtra product caused: by misuse, neglect, abuse, or other improper handling of the product; by failure to follow use or care instructions; by use of the product for other than its intended purpose; by accident or natural forces such as fire or flooding; or by normal wear and tear such as scratches to the product surface.

The Warranty also does not cover Dogtra products that: are purchased from non-authorized dealers; are purchased outside of the United States or Canada; have been damaged during shipment (even if Dogtra paid or arranged for shipping); have been modified or tampered with in any manner; are opened or repaired by anyone other than Dogtra; or have serial numbers that have been altered or defaced.

Sole Warranty

This Warranty is the only warranty offered by Dogtra for its Dogtra products. Other than said Warranty, Dogtra makes no other representations or warranties whatsoever regarding its products, whether oral or in any product manual, on any packaging, on any website, or in any other written material. No dealer of Dogtra products, nor any employee or agent of Dogtra, is authorized to make any additions, changes, or extensions to the Warranty. Dogtra, at its sole discretion and at any time, reserves the right to modify the Warranty.

DISCLAIMER OF OTHER WARRANTIES

THE FOREGOING WARRANTY IS PROVIDED IN LIEU OF ALL OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED. DOGTRA DISCLAIMS ANY IMPLIED WARRANTIES INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Limitation of Remedies

Dogtra's liability is limited to the cost of repair or replacement of the Dogtra product under Warranty. Any claim or action to enforce the Warranty must be commenced within thirty (30) days of the Warranty's expiration for your product. Dogtra will not be liable for any indirect, incidental, special, consequential, or similar damages based on breach of warranty, breach of contract, negligence, strict tort, or any other legal theory related to Dogtra and its products. Damages that Dogtra will not be responsible for include, but are not limited to: loss of income or profits; loss of revenue or savings; loss of use of the product or associated products; cost of any substitute products or services; inconvenience, downtime, or any other time; loss of goodwill; claims of third parties including customers; and damage to property.

Legal Rights May Vary By State or Jurisdiction

The Warranty gives You specific legal rights, and You may also have other rights which vary by state or jurisdiction. Some states or jurisdictions do not allow certain limitations of implied warranties or of incidental or consequential damages or other remedies, so certain of the foregoing limitations may not apply to You. If any portion of the Warranty is held by a court to be invalid or unenforceable, the remaining portions of the Warranty shall remain in full force and effect and shall in no way be affected or invalidated, and the invalid or unenforceable portion shall be modified so as to most nearly achieve the intent of the Warranty.

Product Registration

Dogtra recommends that customers register their products as soon as possible after purchase. Product registration will facilitate any future warranty service. You may also receive useful information and updates about your existing and future Dogtra products. To register your product, visit www.dogtra.com/product-registration. If your product is not registered with Dogtra, You will be required to provide a receipt or other proof purchase (as provided above) to qualify for warranty service.

How to Obtain Warranty Service

Should your Dogtra product require warranty service, please contact Customer Service by phone or email for a warranty evaluation (see below for contact information). Upon approval of your warranty work, Dogtra will repair or replace (at Dogtra's election) your product without charge for labor or parts. You are responsible for shipping, including cost, of your product to Dogtra for warranty service. Dogtra will handle shipping, including cost, of the repaired or replaced product back to customers in the USA. Dogtra will not be responsible for shipping, including cost and/or applicable taxes or fees, for products sent to Canada. Such costs, taxes, or fees will be borne by the customer.

To register your product, visit www.dogtra.com/product-registration.
